- Darryl Creel, RTI

2:45-4:00 Networking / social

RSVP: Please RSVP (click here) by 29 March. Registering online will help us keep you apprised of the agenda and networking sessions.

Overview: A day with employers from the greater Washington DC area statistical and data science community. Ask questions to and hear from area leaders and hiring officials on how to best posture yourself to successfully make the leap from classroom to workplace. Continue the discussion more personally over lunch and afterwards during the social hour for unmatched networking opportunities. Meet fellow students from George Washington and George Mason Universities and beyond.

Lunch: Sandwiches, chips and drinks (plus cookies!) will be provided.

Host: The Washington Statistical Society, with generous assistance from the George Mason and George Washington University Student Chapters of the American Statistical Association

Checking-in on Arrival: Please sign in!

POC email: Arnold Saunders, arnold_saunders@gwu.edu

A special note to alumni: Statistics and biostatistics program alumni are welcome at Chapter events.
